CPO Limited Announces Relocation of its Santa Clara, California Office

SANTA CLARA, CA, ISSUED May 19, 2010...CPO Limited, a solution provider of document imaging products and services, recently relocated its Santa Clara, CA office to a new location within the same community, in order to accommodate increased client needs and expansion plans.

The 29-year old firm's new location is in the Marriott Plaza Building, 2901 Tasman Drive, Suite 112, in Santa Clara. CPO Ltd. will continue its longstanding relationship as a member of the Santa Clara community; company founder and CEO Mike Arnold said that the company relocated from its previous Santa Clara location at 2545 Scott Boulevard because of increased client demands and the need for new space to accommodate additional product lines and new business divisions. "Santa Clara has been our home for many years and it was important to us to remain anchored in this community," he said, adding, "With some of our expansion plans in space, we sought a different location and requirements to accommodate our plans, and this location is ideal for what we have planned."

The Marriott Plaza Building offers excellent access to Highways 101 and 237, and is adjacent to the Hyatt, Hilton and Santa Clara Convention Center. This recently-renovated property is adjacent to both road and rail transportation.

The new location that is home to CPO Ltd. showcases a state-of-the-art Sales Center, providing opportunities for businesses to see demonstrations of the latest Konica Minolta and Sharp products and services, as well as various other software solutions in their fully integrated showroom. The office space has been configured so that there is a separate area which serves as warehouse/storage, to accommodate more room in the sales/demonstration section. CPO Ltd. is an authorized dealer for both product lines and anticipates adding a third product line to their inventory within the next several months.

Part of the rationale for the move is to accommodate changes that CPO Ltd. has in place. In recent years, the firm has significantly expanded its Managed Print Division, which helps businesses save on the bottom line of document generation using a per-copy rather than price-driven approach. CPO Ltd. has also expanded its IT services, will pick up a third line of equipment, and plans to expand its client base into additional fields, including an expanded emphasis on the legal, banking and healthcare industries. "This location positions us perfectly for our planned growth," he added.

Arnold, who is a resident of nearby Saratoga, CA, founded CPO Ltd. in 1981 and has continually expanded his company's product lines and services. CPO Ltd has been providing imaging products and services to Fortune 1000 companies, government agencies, schools and universities in the San Francisco Bay area. The firm employs 40 and serves the entire Bay Area.

Arnold is active both in his community and his industry. A former soccer coach and film producer, he serves as a member of the national Business Technology Association's Select Dealer Group, and his

resume includes a decade's service on the Board of Directors of the National Independent Service Organization (NISO).

About CPO Ltd.

CPO Ltd. is a privately-held company and leading supplier of document imaging products and solutions to companies, government agencies, schools and universities in the San Francisco Bay area. CPO Ltd is an authorized distributor of Konica Minolta and Sharp products. Founded in 1981, CPO Ltd is the oldest privately-held office product provider in the Silicon Valley and has been recognized over the years for excellent and personalized customer service. From its early days of focusing on national and international sales of remanufactured high-volume copier/duplicators, the company developed into an Independent Service Organization providing sales, service, rentals and supplies on high-volume equipment. CPO Ltd has further expanded over the years to include a wide array of cutting edge technology hardware, software solutions and network support services. CPO Ltd. offers a number of workshops and seminars on office equipment, print management, and additional topics aimed at saving businesses and institutions on their document generation cost. The firm also offers a unique "Love It or Leave It" program which provides risk-free ownership and service of office equipment. CPO Ltd. maintains headquarters at 2901 Tasman Drive, Suite 112 in Santa Clara, Ca. CPO Ltd is a member of the Silicon Valley Chamber of Commerce, the Business Technology Association, the Better Business Bureau and the Select Dealer Group. For additional information on CPO Ltd. and the products and services it offers, please call (408) 727-3310 or visit www.cpoltd.com.
