KAF commemorates 25th anniversary on April 19th; formal celebration planned in the fall

BRAINTREE, MA, ISSUED APRIL 19, 2016...KAF, one of the leading CPA and business consulting firms in the Boston area, is proud to announce its 25th anniversary on April 19th.

Many clients have been with the firm since its inception in 1991 – a true testament to the genuine connection the KAF staff has with the people it serves. Strong client service coupled with the help and support of many wonderful business relationships has resulted in continued growth for KAF, year after year. This growth has contributed to the firm’s steady expansion of its line of services and areas of expertise.

Within the past year, KAF redefined its brand to capture the firm’s true essence; this successful endeavor included the introduction of the tag line, “CREATE GREATNESS TOGETHER.” The new motto not only describes the synergy established with clients, but also with employees. The idea that working together yields success is the foundation of the KAF philosophy.

“There have been many changes within our industry since KAF was established 25 years ago,” said Managing Partner Kenneth Kirkland. “We’re proud of our ability to successfully meet any and all challenges and can genuinely say that the KAF brand stands for exceptional service, valuable relationships, fulfilled employees and quality work.

“Our clients, employees, and other members of the ‘KAF family’ have been instrumental in our growth and evolution,” added Kirkland. “I believe this has contributed greatly to our success and truly sets us apart from other firms.”

KAF will hold a formal celebration of its 25th anniversary in September.
