GZA GeoEnvironmental, Inc. Moves to Expanded Office Space in Livonia

NORWOOD, MA AND LIVONIA, MI...ISSUED FEBRUARY 4, 2010...GZA GeoEnvironmental Inc., a leading environmental and geotechnical consulting firm, has combined the staff from the former Vision Environmental, Inc (VEI) of Walled Lake MI and the staff of GZA's Livonia, MI office into new office space located at 19500 Victor Parkway in Livonia.

The combined staff of 33 professionals will continue to expand their services with air quality, permitting, regulatory compliance and below-ground environmental assessment capabilities to GZA's Great Lakes operations. VEI joined GZA in November of 2008 nearly doubling GZA's growing air quality practice and expanding their services to the automotive and other industries in the Midwest. The entire former staff of VEI joins the staff at GZA in the new office space Livonia, MI

With the emergence of climate change, the increasing concern over the impacts of greenhouse gas emissions and the awareness of environmental sustainability, this expansion of GZA's air quality practice supports the company's strategic decision to enhance air quality, regulatory compliance and permitting capabilities.

"In combining our resources and strong knowledge base we further ensure our continued commitment to the highest level of service for all our existing and new clients," said William R. Beloff, President and CEO of GZA GeoEnvironmental, Inc. "The new Livonia office is an important piece in our company's growth in serving the Midwest."

About GZA
