Office Gallery International Selected to Design New Offices for MENTOR

BOSTON and NORWOOD, MA, ISSUED AUGUST 26, 2019...Office Gallery International (<http://officegallery.net>), a Norwood, MA-based leading provider of office furniture and design services for the business community since 1989, announces that it was chosen by MENTOR: The National Mentoring Partnership (MENTOR) (www.mentoring.org) of Boston to design and furnish their new office space.

Founded in 1990, MENTOR is a national non-profit leading and unifying the youth mentoring field. Their mission is to fuel the quality and quantity of mentoring relationships for America's young people. When they were founded nearly 30 years ago, there was an estimated 300,000 youth with mentors outside of their family. Today, due to hard work and great progress, 4.5 million youth now have structured mentoring relationships while growing up.

MENTOR was looking to expand their office space, and reached out to Office Gallery for assistance with designing the space to fit their needs. Their growing team needed a space that better fit them physically and better reflected their values of transparency and inclusivity. Office Gallery worked with the MENTOR team to create collaborative open workspaces, two conference rooms of varying size and formality, a welcoming entry space, functional kitchen, and semi-private offices that still maintained an environment of working together. All of these spaces include carefully selected and well-placed pops of on-brand color that foster a fun yet professional vibe, matching MENTOR's energy.

"Office Gallery truly made this process of expanding our office space exceptionally easy," said Sarah Jasinski, chief of staff at MENTOR. "They did an amazing job learning about our organization, our employees, and our needs in order to design a perfect space for us. Every day I walk into the office, it feels like an extension of who we are. We are so pleased with the awesome office space we have now!"

"We were thrilled to help an organization like MENTOR," said Erin Curran, design project manager for Office Gallery. "We enjoyed the challenge of creating a collaborative, professional workspace while still ensuring that the children they work with would feel comfortable and supported. We wish them much continued success."

About Office Gallery International

For 30 years, Office Gallery International (<http://officegallery.net>) has been one of Boston's most trusted office furniture suppliers. With longstanding relationships throughout the community and with furniture suppliers nationwide, Office Gallery helps companies of all sizes with their office furniture and design needs. Founded in 1989, current owners Michael and Hilary Troia, who already had a longstanding history of work experience with the company, purchased Office Gallery International from the founders Allen and Gwen Wluka in 2016. A state-of-the-art showroom features modern, traditional, and custom office furniture for a clientele ranging from start-ups to Fortune 500 companies. In addition to customized office furniture selections, Office Gallery International offers a high-tech approach to furniture selection and visualization, including the Tec Slate interview display screen. Office Gallery International maintains offices at 68 Vanderbilt Avenue, Norwood, MA 02062. For additional information, please call (781) 762-3733 or visit <http://officegallery.net>.
