Office Gallery International Selected to Design New Offices for Datasmith Network Solutions

NORWOOD and WALPOLE, MA, ISSUED JANUARY 13, 2020...Office Gallery International (<http://officegallery.net>), a Norwood, MA-based leading provider of office furniture and design services for the business community since 1989, recently announced it was chosen by Datasmith Network Solutions (<https://datasmithnetworks.com>) of Walpole to design and furnish their new office space.

Founded more than thirty years ago, Datasmith provides consultative and hands-on networking services that reduce downtime, improve security, and increase ROI. Their goal is to ensure that your technology is maximized to be efficient, productive, ready for growth, and aligned to business priorities. Datasmith's high-touch approach, coupled with their expertise and management, means clients do not have to worry about a thing. Their success starts with putting the customer first and paying attention to all the details.

After being in the same office building in Walpole for nearly 12 years, Paul Smith, the owner of Datasmith, along with George A. Georgenes, Datasmith's business operations manager, decided their space was no longer conducive to a harmonious and productive work environment. In June of 2019, they found new space at 17 West Street in Walpole, doubling their office square footage. Since they felt it important to start fresh in this new space, they contacted Office Gallery for their furniture and design needs. Office Gallery worked with the Datasmith team to create collaborative workspaces, private offices, a reception area, conference room, kitchen, and two bathrooms.

Datasmith's team was extremely pleased with how the overall layout and design of the office came out. The move injected a new sense of vibrancy in their business; their team now consistently demonstrates improved levels of collaboration and creativity. Additionally, instead of meeting clients on the road, Datasmith is now excited to invite guests into their new office space.

The centerpiece of Datasmith's new office is, not surprisingly, the conference room. They selected a solid, light wood conference table with a nice grain, accentuated by eight white leather chairs. The room also features a big television display, perfect for a variety of gatherings. The furniture itself works with the branding and services offered of Datasmith. They chose sleek, modern furniture with clean simple lines.

"We were very grateful to have the opportunity to create an office design for Datasmith that they are proud of, and that fosters communication and collaboration, which has improved office morale considerably," said Hilary Troia, president of Office Gallery.

"Hilary and the team at Office Gallery made the process of our move and renovation extremely easy by helping us make decisions, communicating expectations, and then meeting them consistently and on time," said George Georgenes, business operations manager for Datasmith. "We already had two open houses with family and friends to show off the new area, and have noticed that everyone has a renewed sense of positivity and desire to contribute to the company's overall growth. We are so pleased with how Office Gallery created our inspiring new space!"

About Office Gallery International

For more than 30 years, Office Gallery International (<http://officegallery.net>) has been one of Boston's most trusted office furniture suppliers. With longstanding relationships throughout the community and with furniture suppliers nationwide, Office Gallery helps companies of all sizes with their office furniture and design needs. Founded in 1989, current owners Michael and Hilary Troia, who already had a longstanding history of work experience with the company, purchased Office Gallery International from the founders Allen and Gwen Wluka in 2016. A state-of-the-art showroom features modern, traditional, and custom office furniture for a clientele ranging from start-ups to Fortune 500 companies. In addition to customized office furniture selections, Office Gallery International offers a high-tech approach to furniture selection and visualization, including the Tec Slate interview display screen. Office Gallery International maintains offices at 68 Vanderbilt Avenue, Norwood, MA 02062. For additional information, please call (781) 762-3733 or visit <http://officegallery.net>
